

## A Small Business Owner Gets Out From Under the Burden of Administrative Responsibilities

### Client Challenge:

Our client is a medical practice offering multiple kinds of therapy for patients. As a small family-owned-and-operated practice, too much of the administrative burden fell on the owner, who needed to devote his time to value-adding activities. He was also unable to get away from the office due to administrative worries and payroll.

### Employer Advantage Solution:

We streamlined PTO, timekeeping, payroll and benefit administration all through our single system. The owner also has a single person to contact for support about regulations.

### Business Impact:

The owner has been able to focus on running his business and less on administrative issues. He can take time away from the office without worrying about how his employees are managing and can even process payroll from his camping trailer!

**Industry:**  
Healthcare

**Location:**  
Arkansas

**Number of Employees:**  
10+

**Challenge:**  
Owner spending too much time on administrative HR activities

***“It makes me sick thinking about the amount of time I’ve lost over the last 10 years not using a service like Employer Advantage.”***
